

DRSN Lecture & Workshop

12th August
WIMR Seminar Room

Spectral unmixing

On your own device | Free

Yuchen Li

Spectral cytometry data and spectral unmixing can be daunting to look at first, but it is simply linear algebra. Yuchen promises you it is not as hard as you might think, and that you can absolutely do it on your own.

What to expect in the lecture:

- Learn about spectral flow data structure and the principle of unmixing

What to expect in the workshop:

- Set up your R environment for spectral flow
- Perform spectral unmixing in R
- Inspect and gate unmixed data in R
- Extract summary statistics from gated data

Lecture: 11 – 11:30am

Lunch: 11:30 – 12pm

Workshop: 12pm – 2pm
